

Caring for families with a community of support.

The purpose of Ronald McDonald House® Mid-Missouri is to care for families with children who are ill or injured. We provide essential services that remove barriers, strengthen families and promote healing when children need healthcare.

Parents don't know when their children will need medical help. But with our deep and unique understanding of families, especially when faced with a health crisis, we're here to provide support when they need it most.

Through the Ronald McDonald House®, we provide a home away from home that serves and sustains families of children being treated at area hospitals and health-related facilities; the Ronald McDonald Family Room® within the MU Health Care Children's Hospital offers a quiet respite where parents and caregivers can take a break from their child's bedside; and our Lunch on the House program distributes nutritious lunches five days a week to families who have a child being treated at Children's Hospital, Boone Hospital, or the Thompson Center for Autism and Neurodevelopment.

By supporting our mission, together we can make a significant difference in the health outcomes of children.

Thank you!
